votes of the present shareholders, represented or who expressed their vote by correspondence, with the vote “against” of the shareholders representing 0.0010% (25 votes) from the votes of the present shareholders, represented or who expressed their vote by correspondence (there being 0 abstentions and 0 unexpressed votes):

- I. The increase of the share capital of the Company with the amount of **200,000 RON**, by issuing a maximum number of **1,000,000** new shares, each with a nominal value of **0.2 RON / share**, for the benefit of shareholders registered in the Shareholders Register kept by the DEPOZITARUL CENTRAL S.A on the registration date, to be set forth by the Extraordinary General Shareholders Meeting according to item III on the agenda, related to the capital increase (hereinafter referred to as the “**Registration Date related to the share capital increase**”).

Consequently, the company's share capital will be increased from **3,125,000 RON** divided into **15,625,000 shares**, each with a nominal value of **0.2 RON**, to the amount of **3,325,000 RON** divided into **16,625,000 shares** with a nominal value of **0.2 RON**.

The increase of the share capital is made in the following conditions:

1. **By offering newly issued shares to be subscribed by:**
 - a. the shareholders of the Company registered in the register of shareholders on the Registration Date related to the increase of the share capital, who hold preference rights that were not transferred during the preference rights trading period;
 - b. the persons who acquired, during the preference rights trading period, preference rights from the shareholders registered in the Company's shareholders register available on the registration date related to the increase of the share capital;
 - c. If, after the expiry date of the period for exercising the preference rights, any unsubscribed shares are still available, they will be offered for subscription within an offer addressed to a maximum number of 149 investors (known as “**private placement**”) at an issuing price **equal to 105%** of the price in the first stage, according to the mathematical formula: "Price in the second stage = share price in the first stage * 1.05".
2. Romanian - ASF) and with the specific regulations of the market on which they will be traded.

3. According to the law, the total number of preference rights is equal to the total number of shares registered in the register of shareholders of the Company, held by DEPOZITARUL CENTRAL S.A., on the registration date related to the capital increase. Consequently, each shareholder registered in the register of shareholders on the registration date related to the share capital increase will have a number of preference rights equal to the number of shares held by that shareholder (and registered in the register of shareholders of the Company, held by DEPOZITARUL CENTRAL SA, on the registration date related to the capital increase).
4. For the subscription of a newly issued share, within the stage of exercising the preferential rights, **a number of 15.625 preference rights is required.**

Therefore, a holder of preference rights (either a shareholder registered on the reference date related to the capital increase, who did not transferred his preference rights, or a buyer of preference rights from the shareholders registered in the shareholders' register on the Registration related to the capital increase) may acquire a maximum number of newly issued shares calculated by dividing the number of preference rights held by the respective holder on the Registration Date related to the capital increase, to the number of preference rights necessary to subscribe a new share.

If the calculations show that the maximum number of shares that can be subscribed during the stage of exercising the preference rights is not a natural number, the maximum number of shares that can be effectively subscribed will be rounded down to the immediately lower natural number.

5. The subscription period of the shares within the stage of exercising the preferential rights will be 31 days from the date established in the prospectus approved by ASF, the date which will be prior to the Registration Date related to the capital increase and the date of publication of the decision in Official Gazette of Romania.
6. The price at which the holders of the preference rights will be able to subscribe will be the average trading price calculated for the last 30 days prior to the date of submission the offer prospectus for approval by ASF, to which a **25% discount** is applied, according to the mathematical formula: "**Issue price = average trading price in the last 30 days * 0.75**".
7. The newly issued shares, remained unsubscribed at the stage of exercising the preference rights, will be offered within the offer addressed to a maximum number of 149 investors (known as "private placement") at a price that will **be equal to 105%** of the price in the first stage of the increase, **described in point 6**, according to the mathematical formula: "**The price in the second stage = the share price in the first stage * 1.05**".
